- *XII percentage : 81%*
- *X percentage : 78.6%*

PROJECTS

DATA SCIENCE JOB SALARIES :

Data Visualization Head :

- *Lead data visualization for a project using Tableau to analyze and present complex datasets through interactive dashboards.*
- *Overcame challenges with large, inconsistent data to clearly depict salary trends across job titles, experience levels, and regions.*
- *Delivered insights that highlighted salary highs in North America and Europe, especially for senior roles in large companies.*

EMAIL SPAM DETECTION USING MACHINE LEARNING :

- *Developed a spam detection model using Logistic Regression and TF-IDF, achieving 96.77% accuracy on test data.*
- *Preprocessed and vectorized over 5,500 emails to extract meaningful features for effective spam classification.*
- *Designed a user interface allowing real-time email input and interactive spam handling options like reporting, blocking, and deleting.*
